PRODUCT BRIEF

High Performance Computing (HPC) and Hyper-Converged Infrastructure (HCI)

Featuring the 2nd Generation Intel® Xeon® Scalable Processor Family

Density Optimized System Enabling Next-Gen Performance

Performance Optimized for Compute Density

The Intel® Server Board S2600BP product family is a purpose built, rack-optimized server board ideal for use in hyper-converged, data analytics, storage, cloud and high performance computing applications. Designed to support the 2nd Generation Intel® Xeon® Scalable processor family and up to 16 DDR4 DIMM slots per server board (eight DIMMs per processor), the S2600BP product family maximizes memory and processor bandwidth to meet demanding compute use requirements.

Density Optimized 2U Rack Server with High Speed Networking and I/O

- Up to four compute modules per 2U chassis with support for up to two 2nd Generation Intel® Xeon® Scalable processors per module
- Up to 165 W processor TDP for high performance workloads in a 2U air-cooled chassis. Liquid-cooling compatible options also available
- · Networking flexibility with dual 10GBase-T or 10G SFP+ modules
- x16 PCIe* slot per module enabling additional network options
- Support for up to two NVMe* SSDs per node in a 24 drive chassis
- · Hot-swappable compute modules, storage, and power supplies

Future-Ready Platform for the Multi-Cloud, Data-Fueled Enterprise

The S2600BP product family is built with the latest 2nd Generation Intel® Xeon® Scalable processor family. This latest generation processor is designed for performance with high scalability and resiliency with no I/O compromise, and supports a wide range of existing and emerging workloads. The S2600BP product family uses a number of key processor advancements:

- 2nd Generation Intel® Xeon® Scalable processor with drop-in compatibility
- Support for Intel® Optane™ DC Persistent Memory
- Memory speeds up to 2933 MT/s
- Intel® Deep Learning Boost (Vector Neural Network Instruction)
- Support for Intel® Speed Select¹ enables the optimization of processing resources to enhance workload performance, increase utilization, and optimize TCO.
- Integrated 10G Ethernet with RDMA eliminates TCP/IP overhead by offloading transport to NIC for faster switching and packet filtering.
- Intel® AVX-512 enables tiering, de-dup, thin provisioning, and exceptional processing of compute-intensive tasks.
- Integrated Intel® QuickAssist Technology (Intel® QAT) enables hardware- assisted acceleration for critical workloads such as authentication, public key functions, and compression/decompression, while freeing up CPU cycles and reducing demands on the server.
- Intel® Omni-Path Architecture integration, delivering 100Gbps port bandwidth for improved performance and lower latency in medium to large clusters.

Built with Intel® Quality, Reliability and Performance

Intel® Server Products are backed by Intel's design excellence and manufacturing expertise to deliver processing power with high levels of flexibility, manageability, and reliability. Product and design quality is paired with a 3-year standard or 5-year extended warranty and robust technical and incident resolution support to ensure customer satisfaction.

Accelerating Time to Market with Innovative Data Center Solutions

The S2600BP product family is a foundational component of Intel® Data Center Blocks. These fully validated, unbranded server systems include Intel's latest data center technology—already optimized to work better together—allowing partners to accelerate time to market with reliable data center solutions. The process of configuring and validating the components of solutions that are tuned to meet specific customer requirements is a complex and resource intensive process. Intel Data Center Blocks based on the S2600BP product family can help reduce this complexity, making it easier to build innovative server solutions that can support the demands of today's data center workloads.

Purpose Built for Outstanding Compute Density

Purpose built for breakthrough performance, compute density, high-speed networking and I/O with stability and increased uptime.

Common use cases:

- HPC with real-time compute requirements
- HCI for scale out using network for agility and flexibility
- Data analytics requiring high compute power
- Storage for warm tier data
- Cloud Infrastructure with compute intense requirements

HPC Workloads:

- · Genomic sequencing
- · Seismic modeling
- · Computational fluid dynamics
- · High frequency trading

Storage Workloads:

- Scale-up high performance storage
- Scale-out storage for HCI

Cloud Workloads:

- · Telco datacenter
- Public and hybrid cloud infrastructure

INTEL® SERVER BOARD \$2600BP FAMILY

SERVER BOARD SPECIFICATION	DETAILS
Board SKUs	S2600BPBR, S2600BPSR, S2600BPQR
Board Dimensions	6.8" x 19.1"
Processor	2 nd Generation Intel® Xeon® Scalable processor family (Platinum, Gold, Silver, and Bronze)
Processor Socket Type	Two Socket-P LGA3647
Maximum Processor TDP	165 W – board 140 W/165 W – chassis
Chipset	 Intel® C621 Chipset – S2600BPBR Intel® C622 Chipset – S2600BPSR Intel® C628 Chipset – S2600BPQR
Max DIMM Slots	16 DIMMs total – 2-1-1 configuration
Memory Type	DDR4 RDIMMs or LRDIMMs and Intel® Optane™ DC Persistent Memory
Memory Capacity	Up to 1.5 TB for Gold/Platinum CPUs or 768 GB for Silver/Bronze CPUs with DDR4 DIMMs Up to 2 TB for Intel® Optane™ DC Persistent Memory
Memory Speed ¹	2933 ¹ MT/s @ 1 DPC and 2666 MT/s @ 2 DPC (DPC = DIMMs per channel)
Memory Voltage	1.2 V, DDR4 standard I/O voltage
Networking	Dual 10GBase-T ports—S2600BPBR and S2600BPQR Dual 10GbE SFP+ ports—S2600BPSR
Intel® QuickAssist Technology	Supported on S2600BPQR
Board Weight	1.5 kg, 1.6 kg
Packaging Dimensions	578 x 438 x 301 mm, 10 boards per box
Packaging Weight	20.7 kg, 21.4 kg
Warranty	3-year limited warranty, 5-year extended option available

 $\mbox{t\,Note:}\,165\,\mbox{W\,TDP}\,\mbox{supported}$ in enhanced air-cooled Intel® Server Chassis H2204XXLRE only.

INPUT/OUTPUT	DETAILS
USB	Dual stacked rear panel USB 3.0 ports
ІРМВ	One 1x4 pin IPMB header
Serial	One DH-10 serial port A connector
Video	One 1x12 pin video header, 16 MB of DDR4 video memory
Control Panel	One 1x12 pin control panel header
SATA	Four SATA 6 Gbps ports via mini-SAS HD connector – S2600BPBR and S2600BPSR
System Fan Support	One managed 2x7 pin header for system fan module (Intel® Chassis)
Power	One 1x8 pin backup power connector

EXPANSION OPTIONS	DETAILS
Bridge Board Slot	See supported Bridge Board Options under Compute Module Specs
Riser Slot 1 (CPU1)	x16 PCIe* 3.0 lanes (Riser slot 1 not available on S2600BPQR)
Riser Slot 2 (CPU1)	x24 PCle 3.0 lanes
Riser Slot 3 (CPU2)	x24 PCle 3.0 lanes
Riser Slot 4 (CPU2)	x16 PCIe 3.0 lanes

SERVER MANAGEMENT	DETAIL
Embedded Server Management Features	Integrated Baseboard Management Controller, IPMI 2.0 compliant One dedicated RJ45 1GbE server management port One 2x4 pin header for optional Intel® Remote Management Module 4 Lite (Intel® RMM4 Lite 2) with support for remote KVM Onboard LEDs: system status, system ID, POST code diagnostic, BMC error code
BIOS	uEFI based BIOS

INTEL® COMPUTE MODULE HNS2600BP FAMILY

COMPUTE MODULE SPECIFICATION	DETAIL
Form Factor	1U module
Module Weight	~3.6 kg
Packaging Dimensions	716 x 269 x 158 mm
Packaging Weight	~ 4.8 kg
Warranty	3-year limited warranty or optional, 5-year extended warranty

COMPUTE MODULE FEATURE	HNS2600BPBR HNS2600BPB24R	HNS2600BPBLCR HNS2600BPBLC24R	HNS2600BPSR HNS2600BPS24R	HNS2600BPQR HNS2600BPQ24R

Intel technologies' features and benefits depend on system configuration and may require enabled hardware, software, or service activation. Performance varies depending on system configuration. No computer system can be absolutely secure. Check with your system manufacturer or retailer or learn more at intel.com.

Software and workloads used in performance tests may have been optimized for performance only on Intel® microprocessors. Performance tests, such as SYSmark and MobileMark, are measured using specific computer systems, components, software, operations and functions. Any change to any of those factors may cause the results to vary. You should consult other information and performance tests to assist you in fully evaluating your contemplated purchases, including the performance of that product when combined with other products. For more complete information visit intel.com/performance.
